TECHNICAL SKILLS

Python, JavaScript, Node.js, React, Express, PostgreSQL, Bootstrap, HTML, CSS, Git, GitHub, Firebase, MUI

PROJECTS

Initiative Finder

Nov 2023

<https://initfindr.onrender.com/>

- Played a key role in designing and implementing core functionalities, including unit creation/deletion, battle staging, and real-time tracking features, enhancing the gameplay experience for Pathfinder.
- Implemented Firebase for robust data management, retrieval, and real-time synchronization.
- Leveraged Firebase Authentication for secure user access.
- Collaborated to incorporate Material UI components and customized styling, achieving a cohesive and professional appearance while maintaining a focus on user accessibility and interaction.

Marauders Memoir

Oct 2023

<https://maraudersmemoir.onrender.com/>

- Architected a search engine for Harry Potter characters and spells using external data APIs.
- Designed and integrated a Harry Potter Quote of the Day feature that leverages local storage.
- Combined modern web technologies, such as React and React Query, to deliver a seamless and user-friendly platform.

ShelfMate

Sep 2023

<https://shelfmate-io.onrender.com/>

- Developed a Full-Stack inventory management system utilizing JavaScript, CSS, and HTML.
- Integrated secure user authentication with bcrypt-encrypted passwords.
- Utilized PostgreSQL and Sequelize for robust database management.
- Employed session stores and cookies for seamless data persistence during user sessions.
